National Security Study Memorandum 63

TO: The Secretary of State
 The Secretary of Defense
 The Director of Central Intelligence

SUBJECT: U. S. Policy on Current Sino-Soviet Differences

The President has directed a study of the policy choices confronting the United States as a result of the intensifying Sino-Soviet rivalry and the current Soviet efforts to isolate Communist China.

The study should consider the broad implications of the Sino-Soviet rivalry on the U. S., Soviet, Communist Chinese triangle and focus specifically on alternate U. S. policy options in the event of military clashes between the Soviet Union and Communist China.

The study should also examine alternative policy approaches in the event of continued intensification of the Sino-Soviet conflict short of a military clash.

The President has directed that the paper be prepared by an ad hoc group chaired by a representative of the Secretary of State and including representatives of the addressees of this memorandum and the Assistant to the President for National Security Affairs.

The study should be submitted to the NSC Review Group by August 15.
